Skills

Beginner backend developer. I independently mastered and now practice such technologies as: Python, Django, DRF, SQL (MySQL, PostgreSQL), Git, Docker.

I have a basic knowledge of JavaScript (syntax, data types, working with a document, fetch requests).

I have studied basic data structures: static and dynamic array, singly and doubly linked list, queue and deque, stack, associative array.

Experience

- October 2022 — now: *freelance | self-employed*.
 - I carry out web scraping orders on freelance and develop simple parsers; mostly using sync libraries as *requests*, *selenium*, *BeautifulSoup*. I have a little experience writing async scripts using *aiohttp* framework. To write data into spreadsheets I use libraries as *pandas* and *csv*.
- until 2022.
 - Activities not related to software development.

Education

- Self-education.
- Senior secondary education.

Languages

- Tatar — native;
- Russian — native;
- English — intermediate;

- Polska — beginner;
